## SKILL SETS

- **Frontend:** Javascript, React, Svelte, Tailwind, Flutter.
- **Backend:** Python ,Django, FastAPI, NodeJS.
- **Database:** Postgres, MySQL, MongoDB
- **Operations:** Linux, Docker, Jenkins, AWS
- **Other Tools:** Supabase, Firebase, GoAuthentik (IAM Provider), MinIO (S3 compatible)

## SUMMARY

Highly skilled senior software engineer with 3 years of experience, adept at tackling complex challenges with innovative solutions across full-stack technologies. My expertise spans Python, Django, FastAPI, React, NodeJS, Linux, and Docker, enabling me to architect scalable and efficient software systems.

## EXPERIENCE

### Senior Software Engineer– KPMG Assurance and Consulting Services, Pune

NOV 2022 – PRESENT

- Designed, Developed and delivered the serverless environment to run on-demand ETL scripts in Python with a performant cold start of fewer than 10 seconds and hot starts of less than 3 seconds.
- Led and successfully delivered an Operational Risk solution built in Django(Python) and Angular(javascript) for a prominent bank in Vietnam, collaborating with a team of three developers.
- Received "Above and beyond" recognition for outstanding contributions to the Operational Risk solution.
- Implemented code standards, reviews, and compliance guidelines, enhancing code quality, and maintainability, and reducing bug resolution turnaround time.
- Documented technical requirements and prepared comprehensive technical documentation. Engaged in client interactions to deliver optimal technical solutions and guided IT teams in deployment strategies.
- Pitching the idea of the development of a base tool and superheaded its development significantly reduced the time required to initiate new projects by around 1 week.

### Senior Software Engineer – HTS Tech Solutions, Pune

SEPT 2021 – NOV 2022

- Proven expertise as a full-stack developer, leveraging the FastAPI(Python), React(Javascript), and Flutter(Dart) stack to deliver innovative and impactful solutions.
- Successfully architected and developed enterprise-grade driver monitoring software with python(fastAPI), react and docker for delivery drivers, achieving over 3,000 drivers.
- Demonstrated expertise in developing Android Enterprise mobility management solutions, spearheading development strategies, implementing solutions, and planning deployments.

### Cloud Engineer – Flentas Technologies PVT LTD, Pune

JAN 2021 – SEPT 2021

- Leveraged AWS cloud computing and infrastructure to develop innovative and scalable software tools.
- Demonstrated proficiency in Python and javascript(nodejs), consistently delivering high-quality code on a tight deadline.
- Developed the internal cloud cost and usage reporting tool (python lambda function), empowering stakeholders with data-driven insights to optimise cloud spending which led to savings of approximately \$ 15,000 annually.
- Made significant contributions to the migration of Asia's largest IoT kitchen from on-premises to the AWS cloud, ensuring a seamless transition and enhanced performance.

## EDUCATION

### **Bachelor of Engineering** – *SKN Sinhgad Institute of Technology, Lonavala*

Computer Engineering, Jun 2017 - Mar 2021, SPPU Pune

- Completed bachelor of engineering majoring in computer engineering with a CGPA of 7.69. Developed exam management software for the college.
- Volunteered for software training of the students for industry readiness under the guidance of DSC and GDG.

## PROJECTS

### **Shivsut Shop** – *Ecommerce for books* [shivsut.com](https://shivsut.com)

- Single vendor e-commerce app for books with admin dashboard and analytics, built-in payment integration, and order tracking serving 20,000 + products.

ReactJS, Vercel, Supabase(PostgreSQL)

### **Novotic** – *Project management solution.* [novo-tic.web.app](https://novo-tic.web.app)

- Single vendor e-commerce app for books with admin dashboard and analytics, built-in payment integration, and order tracking serving 20,000 + products.

Django(Python), ReactJS, PostgreSQL, Docker compose.

### **SaaSWars** – *Product and solution comparison site.* [saaswars.vercel.app](https://saaswars.vercel.app)

- A SaaS product, tools and solution comparison and blogging site.

NextJS(javascript), PostgreSQL
